Questionaing

Geographical proficiency

Ability to locate places in the world

Knowledge of:

-Their locality, the UK and the wider world

-Characteristics of human and physical features

We provide a Geography curriculum which inspires in pupils a curiosity and fascination about the world and its people that will remain with them for the rest of their lives. Teaching equips pupils with knowledge about diverse places, people, resources and natural and human environments, together with a deep understanding of the Earth's key physical and human processes. As pupils progress, their growing knowledge about the world should help them to deepen their understanding of the interaction between physical and human processes, and of the formation and use of landscapes and environments. Pupils will use their Geographical knowledge, understanding and skills to explain how the earth's features at different scales are shaped, interconnected and change over time.
